This application may contain "Personal Information" as defined under the Municipal Freedom of Information and Protection of Privacy Act. This information is collected pursuant to the Municipal Act, 2001 as amended. It will be used by the Township of Springwater to process this application to determine whether to issue a license, for administration of such license and for law enforcement purposes to ensure compliance with all applicable statutes, regulation and by-laws. Questions about his collection should be directed to the Freedom of Information Officer, 2231 Nursery Rd, Minesing, ON L0L 1Y2 1-705-728-4784, Ext. 2015.

(1769097 – 2015)

<b>Fill-Control Plan shall include any or all of the following</b> (As Required by the Director of Public Works):	
	a key map showing the location of each lot, including the nearest major intersection and north arrow;
	the lot boundaries and number of hectares of each lot;
	the use of the land and the location and use of the buildings and other structures adjacent to each lot;
	the location, dimensions and use of the buildings and other structures existing or proposed to be erected on each lot;
	the location of lakes, streams, wetlands, channels, ditches, other watercourses and other bodies of water on and within a minimum of thirty (30) metres beyond each lot boundary;
	the Regional Storm Flood Plain and Conservation Authority Fill Regulation lines;
	the location of the predominant soil types;
	the location of trees with a diameter greater than 20 cm at grade shall be identified by species;
	the grading elevation at the base of any trees with a diameter greater than 20cm;
	all trees, shrubs and hedges within one (1) metre of the property line;
	driveways on each lot and all easements and rights of way over, under, across or through each lot;
	the location and dimensions of any existing and proposed storm water drainage systems and natural drainage patterns on and within a minimum of thirty (30) metres beyond each lot boundary;
	the location and dimensions of utilities, structures, roads, highways and paving located within a minimum of thirty (30) metres beyond each lot boundary;
	the existing lot topography extending a minimum of thirty (30) metres beyond each lot boundary;
	the location and dimensions of all proposed land disturbing activities, including construction access road;
	the location and dimensions of all temporary soil or dirt stockpiles;
	the location, dimensions, design details and design calculations of all construction site erosion control measures necessary to meet the requirements this By-law;
	a schedule of the anticipated starting and completion dates of each land disturbing or land developing activity including the installation of construction site erosion control measures needed to meet the requirements of this By-law;
	provisions for the maintenance of the construction site erosion control and dust control measures during construction and after as required;
	the scale of drawing, ranging from 1:250 to 1:1000 as deemed appropriate (each drawing control plan to be in metres);
	Geotechnical Engineer's review as required by the Director of Public Works;
	any other necessary information with respect to each lot as required by the Director of Public Works;
	any other information as required by the Director of Public Works;
	proposed final grades and drainage system to be used upon completion of the filling operation;
	a plan showing the design details to proper scale of any retaining wall that may be required and the dimensions of any materials to be used in construction of such retaining wall.
