

NOTICE OF OUTDOOR WATER BAN & FIRE BAN HILLSDALE AREA - APRIL 23, 2018 TO MAY 25, 2018

The Township of Springwater has hired a contractor to perform maintenance activities on the inside of the Hillsdale Water Tower. In order to carry out this work, the water tower will be drained and water storage will be contained in temporary water tankers on the property.

In order to facilitate this work and ensure adequate water for unexpected emergencies, a water ban order will be issued under Bylaw 2017-087. This water ban is deemed necessary and suspends all use of water distributed through a hose or any other attachment. As a result of the water ban, a fire ban has also been issued under Bylaw 2006-041. The following activities have been banned for the Hillsdale area from April 23, 2018 to May 25, 2018:

- **Filling up of swimming pools, no matter what size**
- **Watering of existing lawns**
- **Watering of trees, shrubs, flowers and gardens**
- **Washing of vehicles**
- **Use of water toys, waterslides and water sprinklers**
- **Washing of paved driveways**
- **Washing of siding and windows**
- **Watering of new lawns (sod or seed)**
- **Outdoor burning of any kind**

We have selected this time of the year to minimize the impact on our residents. We apologize for the inconvenience, but appreciate your cooperation to ensure everyone's safety.
