## Policing Committee

This winter we have had a number of instances of freezing rain. If you must drive during these periods, please adjust your driving and use extreme caution. Below are some tips for driving in freezing rain or if you hit black ice:

- Slow down!
- Always be aware of your surroundings.
- Remain calm and avoid overreacting.
- Keep your steering wheel straight. Don't jerk your wheel in an attempt to get off the ice, doing so will cause you to lose control.
- Don't hit the brakes! Instead, ease off the gas pedal to gradually slow down. Shift into a lower gear to gain more control.
- Avoid using cruise control in these conditions.
